

FIRST ANNOUNCEMENT

INTERNATIONAL CONFERENCE ON NATURAL PRODUCTS (ICNP 2011)

Metabolomics—A New Frontier in Natural Products Science

<http://www.icnp2011.upm.edu.my>

13-16 NOVEMBER 2011

Palm Garden Hotel, IOI Resort

Introduction:

The International Conference on Natural Products (ICNP) is an annual event, to be jointly organized by a bidding University/Institution and The Malaysian Natural Product Society. This year, Universiti Putra Malaysia has been given the honour of hosting the 11th ICNP, which is scheduled to be held from the 13-16th November 2011 at IOI Palm Resort in Putrajaya, Kuala Lumpur. During the conference, students and young researchers will get opportunity to interact with researchers of international repute from various parts of the world, and to exchange thoughts on the chemistry of compounds from medicinal plants, food crops and other natural sources, as well as current development in metabolomic techniques in various fields.

Organized by:

Institute of Bioscience and Faculty of Science, Universiti Putra Malaysia and Malaysian Natural Products Society (MNPS)

Objectives of the Conference:

- To explore potential collaboration with foreign and local scientists in developing metabolomic techniques in solving the local needs/problems.
- To explore current development in metabolomics and its utilization in life science research
- To expose local researchers to the metabolomics and future potential of its use in their research.

Research Topics:

- Ethnobotany and ethnopharmacology of medicinal plants.
- Isolation and structural identification of natural products.
- Discovery biology of natural products (in vitro & in vivo).

- Discovery of lead compounds for drug development.
- Enabling methodology and total synthesis of natural products.
- Computational and structure-function studies.
- Pharmacology, toxicology and preclinical issues on natural products.
- Pharmaceutical and medicinal chemistry.
- Herbal discovery research and development.
- Cultivation and agricultural aspects of natural products.
- Process technologies, product development & commercialization issues.
- Metabolite profiling, discriminative analysis & standardization.
- Metabolomics in lead finding and drug discovery.
- Metabolomics in plant-pathogen interactions
- Metabolomics in plant metabolism

Target Group and Registration Fees :

Researchers interested in the field of natural products and metabolomics.

Payment can be made in the form of bank draft, cheque or money order, made payable to BENDAHARI UPM, and sent via mail to secretariat (Attn: Dr. Intan Safinar Ismail).

REGISTRATION	LOCAL	REST OF THE WORLD
Early	600 (MYR)	300 (USD)
Late (After Sept 15)	700 (MYR)	350 (USD)
Postgraduate	400 (MYR)	175 (USD)
Members of Malaysian Natural Products Society (50 (MYR) discount)	550 (MYR)	-
